CD-Player  
**VRDS-701**

The VRDS-701 CD-Player employs a newly-developed VRDS mechanism and a TEAC original discrete DAC. The VRDS is a TEAC-original CD-Drive mechanism that reduces rotation vibration and other unwanted vibration by clamping the CD to an aluminum turntable with the same diameter in order to maximize inertial mass. Furthermore, instead of an ordinary DAC IC for the DAC section, which is crucial to audio quality, the VRDS-701 has a TEAC ΔΣ (delta-sigma) discrete DAC that incorporates our unique algorithms in a discrete circuit. The inclusion of a 10MHz clock input enables flexible integration with systems that are synchronized using an external clock.

●Source: Audio CD, CD (CD-R/CD-RW) ●THD: 0.002% ●S/N Ratio: 108dB ●Frequency Response: 5Hz to 80kHz ●Analog Outputs: XLR x 1 pair, RCA x 1 pair, (6.3mm) Stereo jack x 1 ●Digital Inputs: USB Type-C x 1, RCA x 1, TOS x 1 ●Digital Outputs: RCA x 1, TOS x 1 ●Clock Connector: BNC ●Clock sync input: 10MHz ●Clock Input impedance: 500hm ●Power Consumption: 20W ●Overall Dimensions: 444 x 111 x 333 mm (17 1/2" x 4 3/8" x 13 1/8") ●Weight: 11.1kg

CD-Transport  
**VRDS-701T**

The VRDS-701T CD-Transport utilizes our newly-developed VRDS mechanism. The VRDS is a TEAC-original CD-Drive mechanism that reduces rotation vibration and other unwanted vibration by clamping the CD to an aluminum turntable with the same diameter in order to maximize inertial mass. Used in combination with a UD-701N, which is part of the same series, playback is possible using the discrete DAC in the UD-701N as well as with MQA full decoding. Of course, you can also use it together with a DAC of your choosing, and build a system as you like. The inclusion of a 10MHz clock input enables flexible integration with systems that are synchronized using an external clock.

●Source: Audio CD, CD (CD-R/CD-RW) ●Digital Outputs: RCA x 1, TOS x 1 ●Power Consumption: 10W ●Clock Connector: BNC ●Clock sync input: 10MHz ●Clock Input impedance: 500hm ●Power Consumption: 10W ●Overall Dimensions: 444 x 111 x 333 mm (17 1/2" x 4 3/8" x 13 1/8") ●Weight: 10.1kg

## Benefits of Bluetooth® Turntables

If you don't have (or don't like to install) a full-scale hi-fi system in your room, even our Bluetooth® turntables allow you to enjoy record playing with your Bluetooth® wireless speakers/headphones, making your system simple and easy.

No complicated wiring nor extra hi-fi units are necessary. Simply, press the "PARING" button to connect TEAC's Bluetooth® turntable with your Bluetooth® speakers/headphones which you might already have for your iPod/iPhone or Android phone.

Another beauty of Bluetooth® turntables is, as long as the speakers/headphones are located in its range, you can install the turntable anywhere in the room. Once you find a space for the turntable which requires pretty large footprint particularly in its depth, you don't have to worry about length of cable or ungraceful cable arrangements.
