## SRP 299,00 €

2-Speed Analog Turntable with Phono EQ and Bluetooth

Colour

PRODUCT DETAILS

**A wireless turntable for  a new way of enjoying vinyl records.**
The TN-280BT is not only a great-sounding turntable for music enthusiasts who want to enjoy vinyl records. Bluetooth technology introduces you to a whole new way of listening.

The TN-280BT also accommodates a built-in Phono EQ amplifier that provides Line output, and allows you to connect to almost any sound system, regardless of input type.

The belt-drive motor on the TN-280BT reduces vibration for a sweeter, more accurate sound than direct-drive DJ turntables have, while an aluminum die-cast platter and anti-skating system provide a solid foundation for great-sounding playback.

The high-performance, upgradable MM cartridge captures every detail on your record, and the statically balanced straight tone-arm ensures clear sound.

For music enthusiasts who want to hear every sensuous note of their vinyl collection.

**Main features**

- 2-speed Belt-drive turntable
- Built-in Bluetooth transmitter
- Built-in MM phono equalizer and Phono, Line, and Bluetooth outputs
- High-performance MM cartridge included (Made in Japan)
- Aluminum die-cast platter
- Anti-skating mechanism
- High-density MDF cabinet for better vibration and resonance
