2-speed Analog Turntable

PRODUCT DETAILS

Turn turn turn!
What better way to celebrate the 50th Anniversary of the Summer of Love than with the certifiably far-out TN-420 turntable?

Beneath the groovy exterior, this 2-speed turntable combines a high-density MDF base with an expertly die-cast aluminium platter to deliver incredible resonance rejection, speed control and audio fidelity, while a Japan-made VM (MM) type cartridge, the AT95E from audio-technica traces every detail on the track.

And for easy connection to virtually any audio system, the TN-420 features switchable LINE/PHONO level outputs on RCA connectors and a digital output on USB for easy connection to a Mac or PC for playback and archiving of your favorite LPs at PCM 48kHz/16bit which is CD quality. Once your collection is digitised, you will be able to enjoy them with iPhone/Android phone or car CD!

A fusion of unique appearance and excellent sound.
