Vinyl meets modern stereo sound
This analog bundle brings together the best of both worlds: authentic vinyl playback with the TEAC TN280BTA3 turntable and powerful, modern stereo sound from the Pure Classic Active speakers. Connect your turntable, hook up your TV via HDMI ARC or stream wirelessly via Bluetooth — and enjoy music, movies and radio in one clean, livingroomfriendly setup. No HiFi stack, no complexity. Just switch it on and enjoy.
Key highlights:

- Vinyl made easy: TEAC turntable with builtin phono preamp and Bluetooth transmitter
- True stereo sound: Active main unit plus passive speaker for clear leftright separation
- TV sound via HDMI ARC: One cable for clearer dialogue and immersive sound
- Radio & streaming built in: DAB+/FM with 40 presets, Bluetooth 5.3, USBC and Optical
- Designed for living spaces: Two perfectly matched products in one elegant setup

PRODUCT DETAILS

Enjoy vinyl without the complications
The TEAC TN280BTA3 makes getting into - or back into - vinyl refreshingly simple. This manual beltdrive turntable features a builtin phono preamplifier, allowing direct connection to active speakers without the need for additional HiFi components. The integrated Bluetooth transmitter also lets you enjoy your records wirelessly, giving you modern flexibility while keeping the warmth and character of analog sound.

True stereo that fills the room
The Pure Classic Active system consists of an active main speaker and a passive partner speaker, delivering genuine leftright separation for a wide, natural stereo soundstage. Music feels more alive, and films gain space and depth. Whether placed wide apart for a cinematic feel or closer together for focused listening, the system adapts effortlessly to your room.

TV sound you can finally understand
Thanks to HDMI ARC (or optical), your TV connects with just one cable. Dialogue becomes clearer, sound gains balance and presence, and the experience is a clear upgrade over builtin TV speakers or typical soundbars. Volume can be controlled directly with your TV remote, keeping everything simple and seamless.

Radio, streaming and all your devices in one system
Classic Active acts as a true audio hub for your home. Enjoy DAB+ or FM radio with up to 40 station presets, stream playlists and podcasts via Bluetooth 5.3, or connect laptops, consoles or CD players using USBC, Optical or AUX (RCA). Everything comes together in one integrated stereo system - no cable swapping, no compromises.

A setup that simply works - and looks great
This bundle is made for people who love great sound but don't want a full HiFi rack. Two carefully matched products, intuitive control via OLED display and remote, and a design that blends naturally into modern living spaces. The result: vinyl, TV sound and radio/streaming in one clean, welldesigned stereo setup - plug in, press play, and enjoy.

What's included in the bundle?

- Classic Active (Art. 254590, Black), incl.:
  - 1 active speaker + 1 passive speaker
  - 2 front grilles
  - 1 speaker cable, 1 EU power cable / 1 UK power cable
