SRP 199,00 €

Low Cost, High Performance CD Player supporting MP3/WMA

Colour

PRODUCT DETAILS

The launch of the affordable CD-P1260MKII continues TEAC's long tradition of great-sounding CD players. It plays MP3 and WMA–encoded discs as well as standard CDs, allowing hours of playback from a single disc. A newly-developed CD Drive, positioned at the center of the unit (for perfect weight distribution), reads data from the discs at high-speed while a D/A Converter from Wolfson, capable of 8-times over-sampling, delivers a richly textured sound. The front panel buttons allow the user to navigate through any subfolders to find their music. A fully-featured wireless remote control is included. For great-sounding, reliable CD playback on a budget, TEAC's CD-P1260MKII is the natural choice.

Main Features

- New fast reading CD Drive
- Center-mounted mechanism for Perfect Weight Distribution
- Several Playback Modes including Program, Repeat, Shuffle, and Intro Play
- MP3/WMA File Playback from CD-R/RW discs
- 8 times Over-sampling Digital Filter
- Remote Control
